FEIN MULTIMASTER The universal system for interior work and renovation

After 40 years of oscillating technology expertise: The new FEIN MULTIMASTER Generation.

Made in Germany, the new generation of the MULTIMASTER system for interior work and renovation is here: The new FEIN MULTIMASTER was developed from the unique experience that FEIN has acquired over the last 40 years of oscillation technology. With its oscillating movement and user-friendly accessories, the FEIN MULTIMASTER is an unbeatably versatile, high-precision specialty tool – perfect for all professional outfitting, renovation and repair work. A solution from FEIN, the premier manufacturer of professional and highly reliable power tools.

On the following pages you will find the most important applications for the FEIN MULTIMASTER, arranged by subject, and the accessories we recommend for each application.

Interior fittings

The FEIN MULTIMASTER works level with the surface, allowing the user to cut off protruding nails, screws or pipes completely flush.

Ceramic tile restoration

Replacing individual damaged tiles creates very little dust and cleaning off old adhesive is easy.

All kinds of car repairs

From cutting out body sections right through to paint and polishing work – the FEIN MULTIMASTER is a high-precision tool that requires very little strength to operate.

Renovating windows and doors

Even very weatherbeaten surfaces can be completely renovated to look new again within an astonishingly short time.

Hobby & Home Projects

The wide range of accessories allows for a surprising number of applications, from hobbies such as model-building to house or garden tasks like sharpening tools.

Boat building

Thanks to its high-performance cutting and sanding, the FEIN MULTIMASTER works perfectly with every appropriate material, eliminating manual work and improvised solutions.

Furniture assembly

When assembling furniture, previously time-consuming manual work, such as adding cutouts, can be accomplished far more quickly and efficiently.

Floor covering

The FEIN MULTIMASTER requires very little strength to operate, removing old floor coverings and cutting parquet or laminated flooring, undercutting boards and door frames easily.

Unique expertise, versatile performance: The new FEIN MULTIMASTER generation can do more.

As the inventor of the electric drill, FEIN has been developing innovative and efficient solutions for all kinds of uses, both under heavy-duty industrial conditions and in DIY applications. We use this expertise to improve the oscillating FEIN MULTIMASTER system continuously, adding new accessories so that all the challenges encountered during a working day can be met with just one tool.

In the lead thanks to oscillation technology:

- Unsurpassed versatility in its application thanks to the oscillating action.
- Perfectly smooth running when sanding and rasping – even into corners and edges.

Up to 21,000 oscillations per minute

Perfect handling

The FEIN MULTIMASTER's new ergonomic shape makes for particularly comfortable handling. Design and operating elements are perfectly adapted to the working processes to guarantee safe, fatigue-free work with a minimum of effort. The new SoftGrip insert ensures optimal grip.

Quick-action technology

The new QuickIN rapid change system enables tool-free accessory changes, saving time, offering comfort and facilitating the use of different accessories.

Technical data

Power input	250 watts
Oscillations	11,000 - 21,000 rpm
Cable	16 ft
Sanding pad, corner to corner	3 1/8"
Tool mounting	QuickIN*

* Only for FEIN MULTIMASTER SELECT and TOP

New MULTIMASTER accessories maximize applications

New Universal E-CUT saw blade, bi-metal

The tried and tested universal E-CUT saw blade is now available in the wider 1 3/4" design. The saw blade can be used with or without depth stop.

Order number
6 35 02 152 01 0 saw blade
3 26 07 065 01 0 depth stop

HSS saw blade for wood

Perfect for cutting parquet, laminate or wall coverings; the round HSS saw blade turns the FEIN MULTIMASTER into an oscillating "mini circular saw".

Order number
6 35 02 154 01 0

MINICUT and file set

With the new carbide file insert for the MINICUT and file set, grooves can be filed out cleanly, and wood and plastic completely deburred.

Order number
6 39 01 025 06 0

Table and drill stand support

The FEIN MULTIMASTER can be attached to a table or drill stand, and is suitable for all commercially available drill stands.

Order number
9 26 02 083 01 0

A safe bet for windows, and number one for doors.

Windows, garage doors and outdoor installations can be renovated perfectly with the FEIN MULTIMASTER. Windows are coarse sanded with a 40 or 60 grit sandpaper. After this, smooth the surface with 150 or 180 grit, to achieve excellent results in no time. For best results, use the carbide rasp for heavily weathered surfaces because it provides 5 times more sanding capacity than sandpaper. Even brittle puttied edges can be removed easily and without any danger of glass breakage. The result is completely renovated windows in a surprisingly short time.

1. Sanding frames:

Perfectly sanded surfaces for all conditions of material with the comprehensive range of sanding sheets from 36 to 800 Grit.

For accessories, see page 19 under „Sanding“

2. Sanding spaces and profiles:

The flat sanding pad also gives access to tight spaces, e.g. the slats of shutters.

Order number
6 38 06 142 02 9

3. Dust-Free Sanding:

A dust-free operation with dust extraction for clean results.

For accessories, see page 20
under „Extraction“

4. Sanding and polishing stone window sills:

Natural or artificial stone windowsills can be maintained with the special series of sanding materials and the polishing pad.

Order number
6 38 06 129 06 7

5. Sanding weathered material:

With the carbide rasp, remove stubborn signs of weathering thoroughly and quickly thanks to the high sanding capacity.

Order number
6 37 31 001 01 4

6. Profile sanding:

The FEIN MULTIMASTER with the profile sanding set is ideal for sanding garage doors, tongue and groove boards and other concave and convex profiles.

Order number
6 38 06 183 01 3

7. Working into every corner:

Renovate very old windows perfectly and work effortlessly into corners with the HSS segment saw blade.

Order number
6 35 02 106 01 5

8. Removing glass and putty:

Brittle puttied edges can be removed without any problem and without any danger of glass breakage.

Order number
6 35 02 106 01 5

Clean work with the FEIN TURBO I

Sanding, releases considerable dust that settles as a fine film on surrounding surfaces. Easily contain or clean up this dust with the FEIN TURBO I dust extractor. An integrated on/off switch enables the dust extractor to be controlled easily via the FEIN MULTIMASTER switch. Further information on the FEIN TURBO I set can be found on page 20 and 21.

Order number
9 11 55

Capable of everything important to you and your interior.

Indispensable in interior fittings. Whether you are renovating your roof, fitting a partition wall or hiding your stereo cable behind the wall, the FEIN MULTIMASTER is the perfect tool for all repairs and installation work. It saws precisely into angles and corners, even in tight spaces, and sands with high sanding capacity, saving time and labor.

1. Cutting cable ducts:

The standard E-CUT saw blade is ideal for working plastic components such as cable ducts, air ducts or downspouts.

Order number
6 35 02 133 01 7

Please see the section on **saws** on page 18 for more information about the E-CUT models Standard, Universal and Precision.

2. Sawing structural wood:

Saw into wood 2 3/8" deep with the new universal E-CUT saw blades.

Order number
6 35 02 152 01 0

3. Cutting out structural wood:

The cutting depth for all E-CUT and HSS saw blades for wood can be set with infinite variability with the depth stop.

Order number
3 26 07 065 01 0

4. Cut drywall or plasterboard:

With the E-CUT saw blades, trim plasterboard and make cut-outs easily for electrical installations etc. in sheets that have already been installed.

Order number
6 35 02 133 01 7

5. Sawing pipes flush to the wall:

Ideal for dismantling installations that are no longer required. Using the universal E-CUT saw blades the pipes are clipped off for subsequent grouting flush to the wall.

Order number
6 35 02 152 01 0

7. Sawing shadow joints:

The HSS saw blade for wood turns the FEIN MULTIMASTER into an oscillating „mini“ circular saw ideal for long, exact cuts like expansion sealants in parquet and laminate. Can be used with or without depth stop.

Order number
6 35 02 154 01 0

6. Sanding down plaster:

Use the carbide rasp to sand down cement, concrete, stone, plaster, tile adhesive, paint and wood and save time-consuming and costly manual work.

Order number
6 37 31 001 01 4

Always accurate – even in tight spaces.

Professional assembly and restoration: with the FEIN MULTIMASTER you have the ideal tool for assembling kitchens and furniture. Even difficult operations in the tightest of spaces, such as sawing recesses in elements that have already been assembled, can be carried out accurately and without any difficulty. And when restoring furniture, previously time-consuming manual work, such as profile sanding, can be accomplished far more quickly and efficiently with the FEIN MULTIMASTER.

1. Recesses for cable and pipe access:

Make cut-outs for cable inlets, sockets and plumbing connections using the E-CUT saw blades – without time-consuming dismantling.

Order number
6 35 02 152 01 0

2. Fitting and adapting work sites:

Cutting recesses for subsequent installations and conversions is not a problem with the E-CUT saw blades, even for sheets that have already been installed.

Order number
6 35 02 127 01 7

3. Restoring and renovating upholstered furniture:

The flush cut HSS saw blade saves you effort and the upholstery, as staples can be easily removed and do not have to be pulled out with pliers.

Order number
6 35 02 144 01 4

4. Profile sanding:

The replaceable inserts of the profile sanding set enable you to sand comfortably in cramped spaces, grooves and on profiles with considerably greater sanding speed.

Order number
6 38 06 183 01 3

5. Table and drill stand support:

The combined fixture suitable for all available drill stands makes it possible to cut out grooves and recesses precisely. The drill stand mechanism allows exact adjustments.

Order number
9 26 02 083 01 0

Restore your floors and gain ground in no time at all.

Perfect for all floor work: the FEIN MULTIMASTER caters to the entire range of tasks when it comes to floors – from effortlessly removing old floor coverings, such as carpet or PVC to cutting parquet, laminate, floor strips and door jambs to the correct height, to sanding parquet flooring accurately into difficult corners and edges. The FEIN MULTIMASTER saves you a great deal of time and effort in all operations with its accessories that are specially developed for individual applications.

1. Cutting floor coverings:

Cut rigid material such as plastic or carpet simply and without any problems with the convex segment blade.

Order number
6 39 03 192 01 4

4. Trimming parquet and laminate:

Whether parquet, laminate or composite materials, the universal E-CUT saw blade cuts exactly and appropriately for the particular material.

Order number
6 35 02 152 01 0

2. Removing floor coverings / adhesive residues:

Carpet adhesive residues, coatings or other stubborn materials don't stand a chance against the rigid scraper blade.

Order number
6 39 03 178 01 7

5. Sanding down parquet:

The FEIN MULTIMASTER will impress you with its sanding accessories, high sanding speed and consistent results in situations where other tools don't work at all.

For accessories, see page 19 under „Sanding“

3. Altering door jambs precisely:

The high precision and cutting speed of the E-CUT saw blades are impressive when altering door jambs for higher floor coverings or making recesses in parquet and laminate.

Order number
6 35 02 127 01 7

6. Sawing out baseboard or trim work:

Saw installed baseboard without damaging the wall and floor, thereby avoiding time-consuming touch-up work.

Order number
6 36 02 151 01 8

Achieve clean results quickly in bathrooms.

Quick and economic for bathroom and kitchen renovation. Use the Fein MULTIMASTER to replace individual tiles without damaging the surrounding ones. With the diamond saw blades or carbide blades, the FEIN MULTIMASTER cuts tile grout with the utmost precision and the minimum of dust. The old tile adhesive can then be conveniently removed with the carbide rasp or scraper blade.

1. Removing tile joints:

The segment saw blade is used for removing defective tile joints in corners and on edges accurately and without overcutting. It is available in carbide or diamond quality; the latter will impress you with its noticeably higher service life and is also suitable for epoxy resins.

Order number

6 35 02 118 01 6 Carbide segment saw blade

6 35 02 114 01 7 Diamond segment saw blade

2. Sanding supporting surfaces flat:

The carbide rasp is the all-around accessory for tiling. It smoothes adhesive glue, sands edges and ensures a flat supporting surface.

Order number

6 37 31 001 01 4

3. Removing caulking:

The flexible scraper blade is perfect for removing elastic materials, such as caulking, adhesive residues or paint

Order number

6 39 03 165 01 3

4. Completely removing tile joints:

Where tile joints have to be removed and regouted, the round diamond saw blade is the economic solution, both in terms of time saved and blade life.

Order number

6 35 02 105 01 2

TOP: equipped for kitchen and bathroom

Do you want to replace defective tiles in your kitchen or retile your bathroom? The FEIN MULTIMASTER Top comes complete with the full range of accessories needed for perfect results. For example, the carbide-tipped segment saw blade for cutting through grout, the carbide rasp for problem-free removal of tile adhesive and accessories for a dust-free operation are all included. Further information on the FEIN MULTIMASTER TOP set can be found on page 21.

Order number
7 229 37 51

Bring your workshop into the car.

Top class vehicle repairs: with its versatile range of applications – from cutting out body parts right through to paint and polishing work – the FEIN MULTIMASTER is an effective solution for everyone who regularly repairs and customizes cars. It works with precision even in hard-to-reach places and its high sanding capacity makes it remarkably labor saving. Accessories are perfectly designed for a variety of automotive applications.

1. Cutting out body parts:

Cut sheet steel and plastics up to a max. 19 gauge (1 mm) thick with the HSS segment blades, burr-free and non-warping, with a minimum of flying sparks – without complicated touch-up work. Can also be used universally in corners.

Order number
6 35 02 106 01 5

2. Panel and bodywork repairs:

The round HSS segment saw blades are particularly suitable for panel repairs. These can be rotated several times which considerably increases the service life.

Order number
6 35 02 097 02 7

3. Removing undercoating:

Even stubborn undercoatings can be removed easily with the rigid scraper blade in the fastest possible time.

Order number
6 39 03 178 01 7

4. Restoring and renovating paint:

Paint defects, flaws and areas that you would otherwise have to sand by hand, are made for the FEIN MULTIMASTER. High sanding capacity and an even sanding pattern are guaranteed.

For accessories, see page 19 under „Sanding“

5. Adding fittings:

With the MINICUT and File Set even the tiniest of cuts $\frac{3}{8}$ " and above are not a problem, even in difficult-to-reach places. Available for plastics, metals and wood.

Order number
6 39 01 025 06 0 Set

6. Polishing to a bright shine:

The felt polishing pad set brings a bright shine back to paintwork and chrome.

Order number
6 38 06 140 02 7 Set

7. Finishing aluminium rims:

The Supersoft sanding pad from FEIN enable you to work gently but thoroughly on aluminum rims and sensitive paintwork.

For accessories, see page 19 under „Sanding"

8. Sanding in tight spaces:

The sanding finger is very effective for working in tight or hidden spots.

For accessories, see pages 19/20 under „Sanding"

Definitely one to take on board.

Indispensable for applications on the water: achieve great results in boat building and restoration with the FEIN MULTIMASTER. Thanks to its high cutting performance, the MULTIMASTER works perfectly with wood, fiberglass, carbon fiber-reinforced plastic and virtually all other relevant materials, eliminating manual work and improvised solutions. Great for renovating teak decks!

1. Sanding:

Ideal for restoring and maintaining boats: the FEIN MULTIMASTER sands effortlessly and precisely into every corner and on edges.

For accessories, see page 19 under „Sanding“

2. Finishing and renovating the deck:

Remove deck sealing materials quickly and thoroughly with the cutting blades. The time saving is 80% and more when renovating teak decks.

For accessories, see page 20 under „Cutting“

3. Adding fittings:

The MINICUT saw blades are exactly the right size for working in tight spaces, difficult-to-reach spots or for sawing small recesses (above 3/8").

Order number
6 39 01 025 06 0 Set

4. Filing recesses:

Recesses can be filed precisely to shape with the MINICUT and File Set.

Order reference
6 39 01 025 06 0 Set

5. Repairing the hull / floor areas:

The round HSS saw blades are excellent for sawing work on fibreglass and carbon fibreglass reinforced plastic hulls. Make perfectly clean cuts (0.5 mm wide) without any cracking or damage to the laminate.

Order number
6 35 02 097 02 7

The finishing touch to your home.

For hobbies, home and garden: When sharpening tools, working stone or stone products, laying foundations or model building down to the finest detail, the FEIN MULTIMASTER is efficient and precise. Its comprehensive system of accessories open up undreamed of possibilities. And of course it will impress you with everything that it does, with high cutting and sanding performance, flexible handling and great sensitivity.

1. Cutting out when model building:

For minimum cuts in the space, use the MINICUT and File Set.

Order number
6 39 01 025 06 0 Set

2. Filing when model building:

Recesses can be filed out precisely with the MINICUT and File Set.

Order number
6 39 01 025 06 0 Set

3. Table and drill stand support:

Fix your FEIN MULTIMASTER with the new table and drill stand support to work accurately.

Order number
9 26 02 083 01 0

4. Sharpening blades / cutters:

Sharpen tools and garden-ing equipment, in most cases without even having to remove the blades, with the MINICUT and File Set.

MINICUT HSS saw blade

For non-ferrous metals and plastic, plunge depth 1/16", pack of 2.

Width	Order number
3/8"	6 35 02 130 01 1
1/16"	6 35 02 129 01 9

Diamond file

For sharpening blades and cutters.

Grit	Width	Order number
Extra fine	3/8"	6 37 06 014 02 6
Fine	1/16"	6 37 06 013 02 8
Normal	1/16"	6 37 06 012 02 4

► Sawing

Carbide file set

For filing out recesses and for deburring work. Suitable for the MINICUT and File Set.

Order number
6 37 06 015 01 0

Depth stop

Suitable for all E-CUT saw blades and for the HSS circular saw blade for wood (6 35 02 154 01 0). **Only suitable for the new FEIN MULTIMASTER FMM 250/250Q.**

Order number
3 26 07 065 01 0

► Rasping

Carbide rasp (triangular)

For coarse sanding, filler, tile adhesive, concrete, stone and wood. Suitable for use without or without dust extraction.

Order number
6 37 31 001 01 4

Carbide rasp (finger shape)

For coarse sanding, filler, tile adhesive, concrete, stone and wood. Both sides of the finger are coated – particularly good for artistic work.

Order number
6 37 31 002 01 7

► Removing grout

Carbide-tipped segment saw blade

For cutting out defective tile joints and for milling cracks in plaster, porous concrete and similar building materials. Recessed, flush cut capable.

Order number
Ø 2 1/2" Thin blade 6 35 02 125 01 0
2 1/2" Standard blade 6 35 02 118 01 6
2 1/2" Thick blade 6 35 02 128 01 5

Diamond saw blade

For cutting through, epoxy grout, marble and concrete trass joints. Low dust generation, very high service life.

Order number
Ø 2 1/2" 6 35 02 105 01 2

Diamond segment saw blade

For cutting out defective tile joints and for milling cracks in plaster, porous concrete and similar building materials. Long service life. Recessed, flush cut capable.

Order number
6 35 02 114 01 7

Cleaning block

Rhomb for cleaning of carbide and diamond tools.

Order number
6 37 19 007 01 0

► Scraping

Rigid scraper blade
